Dear Mr. Greer

Please accept this letter and the accompanying resume as an expression of my interest as a graduate assistant at Rochester Institute of Technology.

As a computer programmer completing bachelor's degree in Information Technology engineering at Nirma University, I have an extensive knowledge about the concerned field and have always enjoyed new challenges. I firmly believe that graduate assistantship at Rochester Institute of Technology will help me achieve exemplary level of skills along with my graduate studies.

I feel that it is important to maintain a real world perspective while developing my academic abilities and therefore, I decided to opt for a job at Infosys Limited. Delivering top level service has been priority and I thrive in a diverse and fast paced management environment. Throughout my 1.5 year long career I have accrued a multitude of skills including corporate technology management and good communication and presentation skills.

I am seeking new professional challenges and am eager to put my knowledge, strong motivation, professional skills, and related experience

towards growth of your organization. I look forward to an interview with you.

I thank you for your consideration and look forward to hearing from you.

Sincerely,

Rajyash

Project Work

Title : SWIFT
Client : Cisco Systems
Role : Developer
Team Size : 7
Technologies : Struts, PL/SQL

Description

SWIFT stands for Software Implementation and Fulfillment Technology. In this Project, we deal with the licensing technology of various Cisco products. This is project is a maintenance project in which we fix the defects as well as work on the minor enhancements. The applications used in this project are mainly concerned with the issues regarding license generation for various products and New Product Integration with the current list of products in the application.

Title	:	CDAS
Client	:	Cisco Systems
Role	:	Developer
Team Size	:	6
Technologies	:	Struts2, Spring, JQuery, AJAX

Description

CDAS stands for Connected Decision Advantageous Services. In this Project, agile methodology was used that is we get the requirements in the morning which we have to finish and deliver by the end of the day. In this project we made small applications which were then integrated by another team into a dashboard. The applications generally dealt with reports and graphs of Cisco's sales in various quarters of the year.

Title	:	Service Repair Enablement
Client	:	Cisco Systems
Role	:	Developer
Team Size	:	6
Technologies	:	Struts2, Spring, PL/SQL

Description

Service Repair Enablement is a web based tool used in the service supply chain of Cisco Systems. This web based tool can be accessed by internal Cisco users as well as by external Cisco users. The tool plays an important role in the servicing of various Cisco products and their parts.

Title	:	Infy Bus Corporation
